

RBN Info - Spamhaus.org Rosko Listing

Spamhaus.Org - RBN Info

Russian Business Network - Among the world's worst spammer, child-pornography, malware, phishing and cybercrime hosting networks. Provides "bulletproof hosting", but is probably involved in the crime too.

Dear stupid trackback spammer at 81.95.144.66,

in case you haven't noticed yet: None of the trackback spams you have attempted to send to this and a couple of other sites over the last 24 hours has made it through. They are deleted automatically, and I didn't even have to block your IP address ...

Sincerely,

The Management

There's a reason why we haven't seen a lot of trackback spam recently, but it seems someone in Russia (81.95.144.66 belongs to Russian Business Network in St. Petersburg) hasn't gotten the memo yet.

Oh, and while you're at it, block 81.95.144.67 through to .70, too. I see Bad Behavior takes care of those already (claiming to be GoogleBot isn't really helping in getting trackback spam through), but just in case.
